## DETAILED ACTION

### *Allowable Subject Matter*

The substance of the interview conducted 8/3/2006 is moot in light of Applicant's arguments, filed 8/31/2006. Applicant's arguments with respect to claims 1 – 13 have been fully considered and are persuasive. The rejection of claims 1 – 13 has been withdrawn.

The following is an examiner's statement of reasons for allowance: the prior art on the record teaches certain aspects of the current application. Chadalapaka (US Patent Number 6,845,403) teaches placing markers at fixed intervals in data streams, storing data blocks in a buffer having a predetermined number registers. Osman et al. (US Publication 2004/0024894) teaches a block counts with decrementing an overall value as data blocks are read out of a buffer along with a marker offset decrement.

However the prior art fails to teach or suggest alone or in combination the limitations of inserting interval markers at predetermined intervals determined in accordance with the number of data blocks counted and a desired marker interval. Prior art is further silent on motivation to combine such features and functionality and is therefore deemed allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
